## Noise From Engine: 40 ...

We purchased a 2000 Silverado 2500. There is a knocking noise in the engine. We took it back to the dealership to look at and nothing could be done about it. Gm is well aware of the knocking noise in the vortex 6. 0 engine. They told us that this was a common problem. It does not matter if it is a cold start or if it runs all

I have a 2000 Silverado LT 5.3 The noise is called "Piston Slap". I believe it caused by a bad design of the piston and piston rings where carbon is built up over time, especially after the engine was ran than turned off. It will be more noticeable when its colder outside.

## **Chevrolet Silverado 1500**

Hi, I have a 2009 Silverado with a 5.3 engine. Recently developed a loud knock after an oil change. I drained some new oil and put in additives...this seems to have helped the knock but now when driving my truck is sounding like a pod racer in the Star Wars movie. This is the closest analogy I have.
